

## Helping students accelerate their paths to college and career.

### EdReady.org

Individuals can test their readiness for college math, see study options, and get a personalized study path to fill in knowledge gaps. EdReady can be used to check math mastery, to plan for college and career opportunities, and to prepare for commonly used math placement exams, such as AccuPlacer, Compass, and the ACT. High school students, homeschoolers, and adult learners will benefit from EdReady.org.

### Changing the conversation from remediation to readiness.

### YourInstitution.EdReady.org

Institutions that are members of The NROC Project (NROC) are entitled to a custom EdReady site with robust reporting capabilities. A custom instance of EdReady can be similar to the functionality of the public site, or vastly different to support any number of academic and career-oriented goals. The EdReady platform is adaptive, flexible, and data-rich. It is built to scale and evolve according to the shifting needs of NROC members.

*Data dashboards provide teachers and administrators with the information they need to support student success.*

### DID YOU KNOW?

- ▶ 20-50% of enrolled college students are unprepared for college-level coursework.
- ▶ As a result they are placed into remedial classes and are 33% less likely to obtain a college degree.
- ▶ Remediation can cost students up to 2 years and \$20,000.
- ▶ EdReady can increase the percentage of college freshman who arrive ready for college math, saving students time and money.

### HOW WELL DOES IT WORK?

The beta release of EdReady (using NROC math materials) was used in 22 pilots in five states, in a variety of class settings, including independent study, emporium models, flipped classrooms, and college prep “boot camps.”

In all cases, when compared to the traditional approach, a much larger segment of students achieved placement exam scores that surpassed the required math cut score. Students also achieved success much more quickly (e.g., in days or weeks of study versus months or semesters of study).

### THE EDREADY STUDENT EXPERIENCE:

#### 1. Choose a goal

*What do you want to be ready for? Your current aspirations will shape your experience. If college-bound, you can select prospective schools.*

#### 2. Assess yourself

*Start where you are. Goals begin with a short diagnostic assessment to find out what you likely do and don't know.*

#### 3. See options

*View your assessment results right away to learn what you need to review. You can browse schools to see how much effort will be required to get ready for different institutions.*

#### 4. Study path

*With a clear idea of where you are and where you want to go, EdReady will build a study path to help you get there. Reach your target score by studying resources recommended by EdReady and performing in-depth checks of your knowledge along the way.*

#### 5. Be ready

*EdReady will help you achieve your academic goals, such as by preparing you to perform well on college placement exams. Come back any time to review or choose a new goal to pursue.*

## Standard Customizable Features

*(Included with NROC membership)*

*Standard features and customizations are a benefit of becoming a sustaining member of The NROC Project, while extended customizations may require additional fees. Our membership-based approach ensures that EdReady is affordable, accessible, and relevant at any scale.*

### REPORTING & DATA ACCESS

Data dashboards for teachers, administrators, counselors, etc. including Excel downloads with appropriate permissions

### LANDING PAGE

Customization options allow you to personalize your EdReady version for your students:

- ▶ co-branding with institutional logo
- ▶ custom header and sub-header text
- ▶ freeform (html) field for further text, links, images
- ▶ choice of EdReady homepage art

### GOALS

What do your students want to be ready for? Each goal can support a unique “readiness experience.”

- There is no limit to the number of goals you can create. Start with one or two to manage a group of students working toward a shared goal, OR, add many goals to further personalize the experience.
- Goals support different roles (e.g. teachers, administrators, counselors, etc.) for setup, management and reporting.
- Each goal includes:
  - ▶ custom image and title to sum up the goal (I want to...)
  - ▶ long description can include freeform (html) supporting text with images, video, and ability to link to external (non-EdReady) applications
  - ▶ one or more custom assessments
  - ▶ option to have students set target score based on school choice, or work toward a predetermined target score
  - ▶ choice of study resources (from EdReady library including NROC resources and others)
  - ▶ custom congratulations text when readiness targets are reached

### ASSESSMENTS

Remove or reorder test items and substitute different test items within a supported scope.

- Currently supporting NROC Developmental Math
- Several assessment protocols to choose from

### RESOURCES

EdReady currently refers students to study our award-winning, multimedia NROC Developmental Math resources. The EdReady library will grow over time, so you can choose which resources your students see.

Other resources planned for inclusion:

- Khan Academy
- NASA eClips
- Art of Problem Solving

### SUPPORT & COMMUNITY

- User guides, professional development materials, basic implementation support resources, and activities to support your local EdReady ambassador.
- Access to NROC support staff and 24/7 online support infrastructure.
- Opportunity to collaborate with peer members of The NROC Project, NROC staff, and other leading organizations to improve and transform educational practice in personalizing the pathways to college and career readiness.

## Extended Customizations

*(Additional fee negotiated)*

*Any level or combination of extended customizations is possible. Choose among the features and services below to further customize your institution's EdReady site.*

### Features & Services

**SINGLE-SIGN-ON (SSO)** integration with an existing LMS or SIS

**ADDITIONAL DATA CONSUMPTION** (by EdReady) and automated differentiation of the EdReady experience based on LMS or SIS data

**ADDITIONAL ASSESSMENT SCOPES**

**ADDITIONAL RESOURCE REFERRALS**

**DATA DEPOSIT FROM EDREADY TO LMS OR SIS**

**EDREADY API** when feasible

**ADDITIONAL TECHNICAL REQUESTS**, including advanced, automated reporting

**ADDITIONAL IMPLEMENTATION SUPPORT**
