Artificial Intelligence For Educators:
Policies, Practices, And Applications

Jethro Jones, a consultant and former national award-winning school leader, and Kevin Morrill, co-founder of School**AI** will discuss ways to implement AI using smart decision making practices with focus on the Three P's and the APLUS Framework. They will include demonstrations of some cool tools you can start using right away. Attendees will walk away with skills and access to start utilizing specific AI Applications. As the nature of AI is changing rapidly with new information coming out every day, this session will be unique to the Nebraska Fall Ed Tech Conference!

Jethro Jones

Jethro Jones is a national award-winning former school leader, podcaster, and author of the books *How to be a Transformative Principal* and *SchoolX* and founder of the BE Podcast Network. Jethro currently consults school leaders on strategies to save time, lead more effectively, and overcome weaknesses. Jethro has worked as a principal at all K-12 levels, including a prison school, a district coach, distance-learning team lead, and English teacher.

Kevin Morrill

Kevin Morrill is the co-founder of School**AI**, a platform that helps educators use AI to save time, boost job satisfaction, and improve student outcomes. As a former tech executive in high-growth companies and school leader, he understands the hurdles educators face when exploring and adopting new technologies.
